Vision 2015 Thanks Delaware PTA for its Support

Vision 2015 thanks the Delaware PTA for its vote to support legislative activity “to enact the building blocks of Vision 2015.” At the PTA State Convention held Saturday, April 21, at Talley Middle School, members voted to endorse a resolution outlining their support for Vision 2015 and its implementation through legislation. Previously, the Board of Managers had voted to bring this resolution to the full membership.

“As the PTA resolution notes, Vision 2015 is research-based, community-driven, and focused on putting students at the center,” remarked PTA President Bud Mullin. “We know from years of experience that parent and family involvement increases student achievement and success. We applaud Vision 2015 for establishing parent and community involvement as one of its core principles. The PTA fully supports Vision 2015 and looks forward to building on the important work underway.”

“We are delighted to receive the support of the State PTA,” said Marvin N. Schoenhals, Chair of Vision 2015. “We thank the PTA for its participation in the development of Vision 2015 as an active member of a Vision 2015 Work Group, and for its continued support—particularly in communicating updates on Vision 2015 to its members through bimonthly newsletters.”

Schoenhals continued, “The PTA has demonstrated its commitment to providing a world-class education to every child in Delaware. We look forward to continuing to work collaboratively with parents, educators, students, and the community to implement Vision 2015 recommendations.”
